

BASELINE SURVEY

ABOUT BORESHA

The main aim of the program is to create greater economic and employment opportunities and thereby strengthen resilience of communities. The program seeks to achieve these objectives through the following broad intervention areas: Strengthening cross-border communities' capacities to identify their own priorities, plan and advocate for measures to help them withstand shocks; Promoting the development of inclusive cross-border environment for livestock and non-livestock trade and business, and fostering private sector opportunities for women and young people; Supporting the equitable and conflict sensitive management of natural resources in the cross-border area.

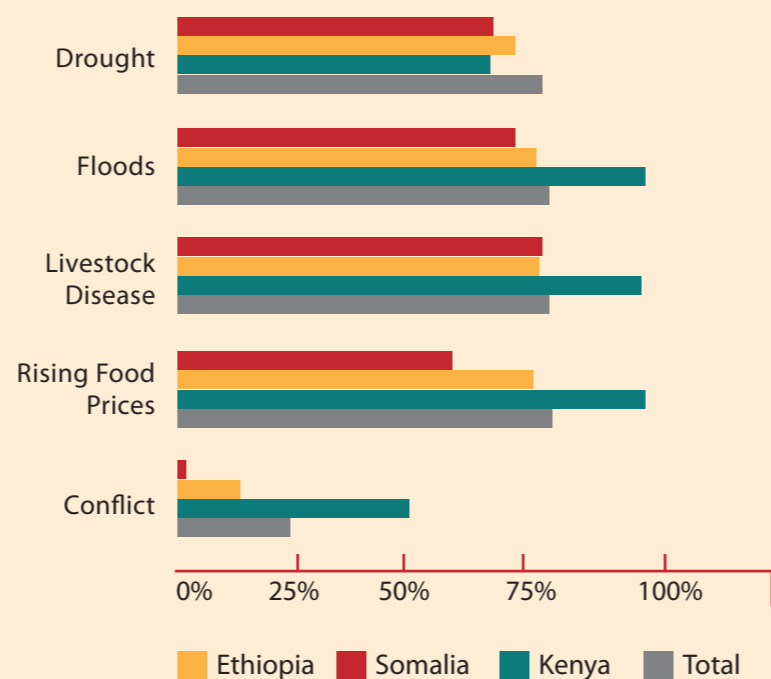

Four main livelihood systems dominate in the areas of interest namely agro pastoralism, pastoralism, formal & informal employment and trading. The economic activities across the border area have been facilitated by a rise of small border towns and settlements on both sides of the border. The area constitutes an integrated cross-border economy, with a set of corridors for commerce and livestock sales for the entire region.

MAIN SOURCE OF LIVELIHOOD / INCOME FOR RESPONDENT

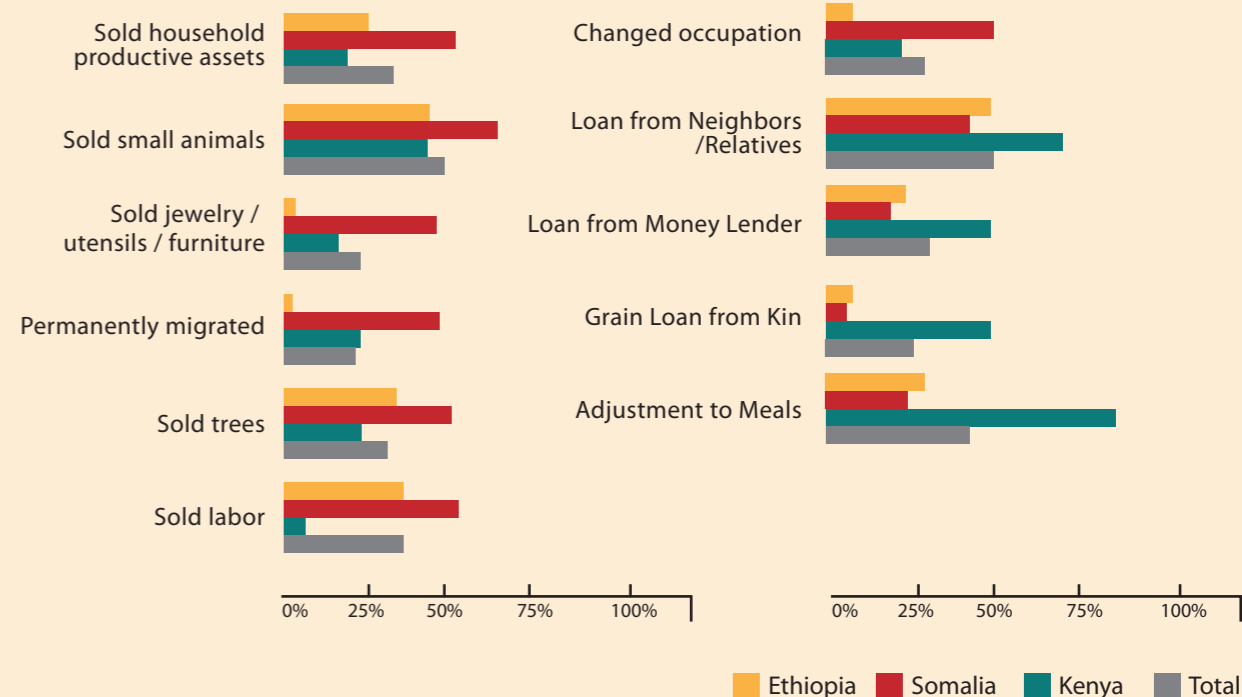

The prevailing shocks experienced in the past 2 years across the three clusters were drought, floods, livestock disease and rising food prices
